

Cleaner air for manufacturing facilities.

Armstrong Manufacturing Control Room Project Spotlight

"It feels very reassuring for myself and our employees to work in a space with cleaner air that keeps us healthier."
- Joe Hinnenkamp, Plant Manager

PRELUDE® 15/16" SUSPENSION SYSTEM / ULTIMA® AIRASSURE™ PANELS / 2 - VIDASHIELD UV24™ AIR PURIFICATION UNITS

Armstrong Ceilings / Marietta, PA / Control Room / Room Size: 900 Sq. Ft.

BENEFITS OF THE NEW VIDASHIELD UV24™ AIR PURIFICATION SYSTEMS.

- ▶ Improved indoor air quality – neutralizes 97%* of airborne pathogens.
- ▶ Reduced measured bacteria and fungi levels within the control room. Increased air changes for better ventilation by 30% – increased ACH (air changes per hour) is recommended by ASHRAE and CDC as a COVID-19 mitigation strategy.

BENEFITS OF THE NEW ULTIMA® AIRASSURE™ CEILING PANELS.

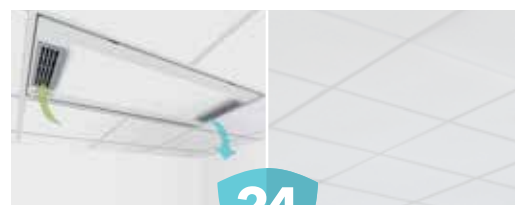

- ▶ Total Acoustics® – improved sound absorption by 35% as well as better sound blocking.
- ▶ Sustain® – no red list chemicals to meet today's most stringent sustainability standards.
- ▶ Improved light reflectance to brighten spaces, maximize light, and enhance visual comfort by reducing eye strain and glare.

Both products were also used in a common area/break room to create a healthier space.

*In third party testing
